

To,
DR.TETSUYA FUJIMORI
PRESIDENT CENEGENICS JAPAN Co.,Ltd.
Tokyo,Japan

Date:3-11-2020

Dear Sir,

We have been paying close attention to the potential of the new coronavirus vaccine for severely ill patient PROMETHEUS developed by your company.

As a result of the examination, we hope to carry out clinical research on your therapeutic drug in India. As a medical institution conducting clinical trials, preparations have already begun in hospitals or high-ranking government officials.

Therefore, we will form a business alliance with your company for clinical research and request the supply of 100 doses of PROMETHEUS therapeutic drug.

With Best Regards,

SHASHI SHUKLA
General Manager-Business Development
